

Equine-Sync Brand & Logo Usage Guide

Brand Identity Overview

Brand Positioning

Equine-Sync is a **luxury operational platform for modern equestrian care**.

The brand should communicate:

- operational clarity
- calm authority
- precision
- sophistication
- trust
- elevated equestrian culture

The visual language combines:

- elite stable aesthetics
- refined modern SaaS design
- understated luxury
- intelligent organization

Core Brand Personality

Equine-Sync Should Feel:

- Quietly powerful
- Beautiful but functional
- Minimal yet warm

- Intelligent without complexity
- Premium without arrogance

Logo Placement Rules

WEBSITE

Desktop Navigation

Placement:

Upper-left corner

Size:

48–56px height

Spacing:

Minimum 32px padding from left edge.

DASHBOARD APPLICATION

Sidebar Placement

Preferred location:

Top-left within sidebar.

Example:

	LOGO

	Dashboard
	Horses
	Health & Vet
	Feed Room
	People

MOBILE APPLICATION

Preferred Placement

Top-center OR top-left.

Use:

- compact logo
OR
- icon-only mark

LOADING SCREEN

Preferred Experience

Centered icon mark over:

- Midnight Graphite background
- subtle Slate Navy gradient

Optional animation:

Soft pulse through circuit lines.

Interface Design Direction

Dashboard Style

The application should feel:

- airy
- premium

- calm
- intelligently organized

Avoid:

- cluttered layouts
- loud colors
- heavy shadows
- overuse of gradients

Card Design

Recommended Styling

```
border-radius: 18px;  
background: #FFFFFF;  
border: 1px solid #E3E6EB;  
box-shadow: 0 2px 12px rgba(35,39,52,0.04);
```

Button System

Primary Button

Background:

Slate Navy

Text:

Frost White

Hover:

Slight elevation + deepened navy

Secondary Button

Background:

White

Border:

Platinum Mist

Text:

Slate Navy

Accent Button

Background:

Smoky Lilac

Text:

Midnight Graphite

Use sparingly for:

- premium actions
- onboarding
- highlighted workflows

Navigation Design

Sidebar

Recommended Background

Sidebar Gradient:

#232734 → #2E3550

Active Item State

- Smoky Lilac glow
- subtle transparency
- rounded pill background

Dashboard Layout Structure

Recommended UI Behavior

Motion Style

- smooth
- subtle
- elegant
- no aggressive animations

Recommended:

- fade transitions
- soft hover lifts
- gentle panel slides

Avoid:

- bouncing
- flashy motion
- gaming-style interactions

Photography + Imagery Direction

Preferred Imagery

- cinematic equestrian photography
- modern stable architecture
- soft luxury
- natural movement
- emotional connection

Visual Style Keywords

Use these terms as prompts:

quiet luxury equestrian
editorial SaaS
modern horse care
calm operational design
premium stable management
soft atmospheric gradients
refined dashboards
high-end equestrian branding

Product Experience Goal

The application should ultimately feel like:

“The operating system for horse care which turns the chaos of horse care into calm.”

Users should immediately perceive:

- trust
- organization
- sophistication
- emotional calm
- operational mastery

The brand succeeds when users feel:

“This stable is run exceptionally well, and Equine-Sync makes it possible.”
